Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 4, 6, 8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 2, line 4, "the retrieve section" lacks antecedent basis. In line 9, "said fixed value" lacks antecedent basis.

In claim 10, line 3, "the contract" lacks antecedent basis. In line 10, "said plurality of bits" lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily

published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 9 is rejected under 35 U.S.C. 102(e) as being anticipated by Franklin et al. (6,055,518). Disclosed is a method for placing a bid comprising the bidder determining a bid price (column 8, lines 47-53), obtaining a code parameter corresponding to the bid price (column 10, lines 40-47), encoding the bid with the code parameter and transmitting the encoded bid to a bid-receiving system (S).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Franklin et al.. Disclosed is an electronic tender system comprising bidder sub-systems (B) including a code parameter acquisition section for receiving a bid and for acquiring a code parameter corresponding to the bid, a code processing section for using the code parameter to encode the bid and a transmission section for sending the bid to a tender opening sub-system (see column 2, line 61 through column 3, line 49,

Art Unit: 3629

column 8, lines 47-53 and claims 1 and 5), and a tender opening sub-system (S) including a reception section for receiving messages from the bidder subsystems until a closing time, a candidate price selection section (column 9, lines 3-52), a decode parameter acquisition section and a determination section for decoding encoded bids (see column 10, line 52 through column 11, line 15 and claim 10).

As to claims 3 and 4, public and private keys are disclosed (see column 4, lines 19-38 and claim 14).

As to claims 5-8, an announcement section is disclosed (see column 9, line 53 through column 10, line 2).

Response to Arguments

Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

This action is made non-final in view of the new grounds of rejection.

Telephone inquiries regarding the status of applications or other general questions, by persons entitled to the information, should be directed to the group clerical personnel and not to the examiner. As the official records and applications are located in the clerical section of the examining Tech Center, the clerical personnel can readily provide status information without contacting the examiner. See MPEP 203.08. The Tech Center clerical receptionist number is (703) 308-1113.
